Dear Sir/ Madam,

Sub.: Press Release

Please find enclosed herewith a copy of a Press Release titled '**Strategic Tie-Up with Tricopat**' which will be disseminated shortly. The Press Release is self-explanatory.

The above information is also being made available on the website of the Company at <https://akaarmedical.in/disclosures-as-per-regulation-46-of-the-sebi-lodr-regulations/>

Thanking you,

Yours truly,
For Aakaar Medical Technologies Ltd.

Anoopkumar V. Pillai
Company Secretary & Compliance Officer

Encl: as above.

Strategic Tie-Up with Tricopat

Aakaar Medical Technologies Ltd has signed a strategic agreement to add Tricopat to its hair restoration and trichology portfolio. Tricopat is a patented, non-invasive hair and scalp treatment system designed to reduce hair loss and stimulate hair regrowth through controlled mechanical and biological stimulation of the scalp.

Strategic and Business Impact

The global hair loss treatment market is estimated at USD 8–9 billion and projected to grow at ~8–9% CAGR, driven by rising incidence of androgenetic alopecia and increasing demand for non-surgical solutions.

Tricopat addresses a high-demand, non-invasive segment, offering clinics an alternative to injectables and surgical hair restoration, improving patient acceptance and repeat sessions.

Clinical studies and published dermatology data report improvements in hair density, hair shaft thickness, and scalp vascularity following Tricopat protocols.

The addition strengthens Aakaar's regenerative and device-led hair solutions ecosystem, enabling protocol-based cross-selling alongside PRP, GFC, mesotherapy, and regenerative biologics.

Supports higher clinic utilization, recurring procedure revenue, and differentiation in the competitive hair restoration market.

This agreement further reinforces Aakaar's positioning as a comprehensive provider of advanced, evidence-based hair and scalp solutions.

For Aakaar Medical Technologies Ltd.
